

Ministry of Energy & Mineral Resources

Jordan Renewable Energy and Energy Efficiency (JREEF)

The Fund was established in response to meet the Kingdom's need to invest in renewable energy sources and diversify its utilization in various sectors, from households, schools and hospitals to the private and public service sectors and to contribute to achieving the objectives of the comprehensive energy strategy in Jordan, 20% of the total energy mix of the Kingdom in 2020, through the activation of methods and procedures of energy efficiency and rationalization of consumption in various sectors, and increase the proportion of investments and business in the field of Renewable Energy, contributing to create new jobs and environmentally friendly and long-term investments.

"Jordan Green Building Council is a world leader NGO in the green buildings field established in 2009, an authorized representative board member of the World and MENA Green Building Councils, and a part of a network of 103 Green building councils around the world. Jordan GBC attained a remarkable success in gaining an advanced position contributing effectively through an affective activities and services as benefits in spreading awareness about green built environment and developing, implementing and disseminating green building policies and culture in Jordan."

SONEX Forum

The Forum is a major activity of this event and it is arranged to be in conjunction with up to date technology and with exhibiting sectors; it is contributed to the Energy and Energy Efficiency Forum.

This Forum has been organized in the last six cycles since 2008 under the patronage of His Excellency the Minister of Energy and Mineral Resources in cooperation international organizations and institutes.

SONEX Forum 2018 will concentrate on the huge demand and trend for using the solar energy in different applications: PV Solar Applications in electrical generation; Solar Cooling Systems, Solar Heating Systems, challenges of the renewable energy and energy efficiency in water and industries. This Forum will be organized in cooperation with Jordan Renewable Energy and Energy Efficiency Fund - JREEF (Ministry of Energy and Mineral Resources), and Jordan Green Building Council supported by international organizations and official institutes.
